SUPERINTENDENT OF SCHOOLS

ARTHUR IRISH

AIMS

The aims of High School education have been stated as follows:

1. Health.
2. Command of fundamentals.
3. Vocation.
4. Character.
5. Worthy use of leisure.

The old type school used to be considered as an agency by which various books could be given to the pupils to learn by heart. The newer school is the child centered school. No expense for school purposes can be justified unless it contributes to better learning of the individual pupil. Children are like race horses and some will learn faster than others. Why then should we not give pupils work according to their interests and ability?

Last year the town decided to put a teacher in charge of every grade. This was a very forward and fortunate step. Owing to the fact that the teachers had several grades and too many pupils there was some retardation. Now the teachers have time to devote to individual work with the pupils.

This year there is a drive on to improve reading. The correct reading habits must be established by the 5th grade. These correct habits are:

1. A wide unit of recognition.
2. A short eye fixation.
3. Regular rhythmic eye movements.
4. A short eye voice span.
5. Recognition of words.

The school department spends considerable time "keeping books". We aim and do account for every penny. However, I consider my principal job to be the Supervision of Instruction.

The Town Library is a very important aid to the Public School work. We urge liberal support of the library and we hope the children will appreciate its advantages.

The School Board has been of great help this year. Their judgment is good. We have also had the help of the town officials.

In order that the School Report may be intelligent I have divided the work up into departments. We ask the constructive advice of every citizen and hope every person will visit school. I have tried to make the report brief and so any person can find what they want.

TEACHERS

The principal task of the teacher is the advancement of the individual pupil. In general teachers talk too much and pupils talk too little.

Experienced teachers and parents are urged to help new teachers find their place in the school system.

Rangeley has a loyal force of teachers who I think are anxious for self improvement. The normal schools will offer, next summer, courses for those teachers of long service who are anxious to brush up. The younger teachers have been encouraged to go to summer school. Last summer Miss Ruth Hill of Oquossoc took advantage of summer school. The Superintendent of Schools has spent the last three summers working for a Master's degree in Education, at Columbia University.

The Maine State Library at Augusta has added many professional books for teachers. For cost of postage a teacher may take out a book for three weeks.

Some vacancies have been filled this past year. Normal graduates have been hired. Within 10 years it is safe to assume towns can hire Normal teachers with 4 years of training. The salary list is average as compared with other towns in the State. The Rangeley salary schedule calls for \$900 the first year and an increase of \$75, \$50 and \$25 for each following year. This is for elementary teachers with Normal training.

The School Janitor maintains heat in the buildings at 70 degrees, keeps the buildings clean, and assists with playground supervision.

The salary list of the teachers is as follows:

SALARIES, SCHOOL DEPARTMENT, 1928-1929

REPAIRS

The past year some very necessary improvements have been made. It was imperative that the additional room in the elementary building be made available. A couple small rooms were made into a standard classroom. Now this is one of the fine rooms in the elementary building.

The water pressure at the High School has been reduced by a valve for that purpose. This helps the water pipes and gives more water for showers.

During the past summer the fence at the High School was erected and the walks put in.

The rollway of the basement at the elementary building was open to the weather. This was fixed.

RECOMMENDED REPAIRS

1. The law requires a flag pole and flag at the New High School.
2. An open air shed for wood is needed at Oquossoc.
3. Minor repairs are necessary on the toilets at the Elementary School.
4. Additional laboratory tables should be provided in the High School Laboratory.
5. School Lot Number 149 at Oquossoc should be cleared of wood. This would provide necessary play space.

TRANSPORTATION

Next year there will be eleven pupils from Oquossoc who will go to Rangeley High. This year we have only one pupil from Oquossoc.

The present school bus has been in operation about four years. The School Committee wonders if it would not be economy to trade in the chassis rather than spend money on repairs?

It is probable that next winter the school bus can be run all winter on the main road to Oquossoc. This should save money on transportation and make it convenient and easy for the pupils.

PARENT TEACHER ASSOCIATION

The Parent Teacher Organization is a live one. Rev. Johnson was President of the Organization last year. Frank Badger was chosen to direct the Association this year.

An attendance contest is on this year and we have two teams, each trying for first place. On "Men's" night in January we had an attendance of members of 113. The weather was unfavorable too.

The Ladies have had charge of the February Meeting. The attendance of this meeting will not be known at the time this goes to press. However, there is an air of eager expectancy about this meeting and it is safe to assume extra chairs were or will be necessary.

ARTHUR IRISH,

Superintendent of Schools.

RECOMMENDATIONS

New equipment	300 00
Repairs	500 00
Domestic Science	650 00
Supplies	800 00
Text-books	650 00
Insurance	601 65
Medical inspection	100 00

HENRY BADGER,

EARL MARSHALL,

MRS. MINNIE PILLSBURY,

School Board.

Report of Principal of High School

To the Superintending School Committee and Citizens of Rangeley:

I herewith submit my report as Principal of Rangeley High School. The total enrollment for the first half year was 97, classified as follows:

Seniors	15
Juniors	23
Sophomores	27
Freshmen	31
Post-graduate	1

The enrollment by courses is:

Commercial	23
Classical	26
General	48

The average attendance for the Fall term was 96.5%. Thirty-three pupils were not absent for a single session.

The course of study has been changed in that Seniors who are not taking Latin are given a half year of Solid Geometry instead of Review Mathematics. This subject is required for entrance to some courses in college.

The Sophomores in the Commercial course are taking Commercial Arithmetic five periods per week instead of three as last year.

All class periods have been made forty minutes exclusive of time for changing classes. This is necessary to comply with the rulings for Class A high schools.

A period for study is provided after the regular school session, with some teacher in charge, for all who have not satisfactorily prepared their work for the day.

Monthly and semester examinations are given and reports sent to the parents at the end of each examination period. An effort is being made to have the class work and examinations conform to the requirements in the better high schools.

There were several changes in the teaching staff this year. Miss Gallop, Miss Wood and Miss Thurlow did not return and their positions are being capably filled by Miss Helen Goodall and Miss Catherine Bickford, graduates of Bates College, and Miss Irene Hacker, a graduate of Farmington Normal School.

More equipment is needed in some departments of the school. Several students wished to take typewriting this year who could not be accommodated. Two new typewriters should be purchased.

The Chemistry class of twenty-five members is working in a laboratory equipped only for a small class. Additional tables and apparatus should be provided.

Some money should be raised each year for the use of the school library. The number of books is much less than the State Department advises for schools of this size.

The athletic program for the boys has been somewhat improved this year. A basketball league was formed with Kingfield, Stratton, Strong and Rangeley competing for a cup presented by Mr. Edgar Berry.

Many schools are adopting hockey as a major winter sport. It seems as though some effort should be made to provide a town hockey rink which could be used by the schools and by older people as well.

In closing I wish to express my gratitude to the school officials, parents and teachers for their generous support.

Respectfully submitted,

E. B. TILTON, *Principal.*

Report of Supervisor of Music and Drawing

To the Superintendent of Schools and Citizens of Rangeley:

Every year music grows in its importance. More and more it is becoming as prominent in the school curriculum as the three "R's" of bygone days. In fact it is sometimes called the fourth "R" in education, the Rhythm, the pulse beat of life. If only it could be given its rightful place and respect in the schools!

A new phase of music was brought into use this year from the first grade through Junior High — music appreciation. Only the best of music is played. The music department was indeed fortunate to have adequate records provided. Many times the pupils hear and recognize these same selections over the radio. In the lower grades the children show their reactions to the music by doing what the music tells them to do or by telling how it makes them feel — that is, what mood it brings. In the upper grades the pupils learn the name of the piece, the selection or larger work from which it was taken, the composer and his nationality.

In the spring all the grades will participate in music memory contests varying in difficulty. A banner is to be given to either the seventh or eighth grade and awards to prize winners.

The High Orchestra has been practicing seriously two afternoons a week (Monday and Thursday) and have played at the school functions. As was the case last year we lack wind instruments but have a bountiful supply of strings. The orchestra this year consists of seven violins, drums and piano.

The general music period has been carried on similar to that of last year. The first three grades take up rote songs, the scale, diction of phrases, individual work with monotones and introduction to books; fourth, fifth and sixth grades have reading from books, explanation of key signatures, time types and introduction of two part singing; Junior High sing in three parts and review fundamentals; the High School take part in community singing every morning.

The drawing has been closely correlated with the music. In connection with the music memory work the grades will make books. These books will contain all the notes concerning the music selections. Then too the first three grades study the outstanding shapes, a little printing and use of the rulers. Grades four, five and six selected "Lumbering" as their project while Junior High has been working on silhouettes or shadow pictures.

We have been fortunate in having only one grade in a room this year. Because of this the work has gone along more smoothly. Wednesday afternoon is spent at Oquossoc and Friday afternoon at Greenvale. The work is carried on similarly to that in Rangeley.

I wish to express my thanks to the Teachers, the Principal of the High School and Superintendent of Schools for their interest and coöperation during the school year.

Respectfully submitted,

HELEN ELIZABETH DOW,

Supervisor of Music and Drawing.

Report of Home Economics Teacher

To the Supt. of Schools:

This department is now a year old and is filling an important place in the school curriculum. The department has had a good start both in equipment and in the courses offered.

This year many new features have been added to the work. The school lunch is one of the most important. At present we are serving something hot, such as soup, cocoa, etc., to those who must carry their lunches. Up to this time only those able to pay the small sum, which does not exceed 7c., have been served. However, through the kindness of our Supt. and School Board, it will now be offered free to those pupils who cannot afford to pay. At first only a few of them were interested but the number has now increased to 35.

The department has made itself felt in other ways, such as sales of cookies, sandwiches, etc., at recess and by serving "eats" to the various athletic teams.

We are endeavoring to exhibit some work of the students at each Parent Teachers meeting so that you may actually see the work being done and the progress made.

Home Economics is required in the Junior High School, and is elective for the four years of the Senior High School. It is hoped in the future to have the High School work divided into two classes; class No. 1 to include all in the High School who have never taken the Home Economics except in the Junior High, and class No. 2 for those who have had one year or more of it.

In this way each student who elects it will be put in the class where she will be the most benefited regardless of whether she is Freshman or Senior.

We have certainly overcome many of the handicaps of last year regarding equipment, etc., although we still lack some things. We have added much to our department. Our floor, which until Christmas was a problem, has been very satisfactorily painted. It now

only requires an occasional washing to be kept in the best of condition. I am sure there is nothing for which we are all more grateful than this.

Respectfully submitted,

IRENE C. HACKER,

Home Economics Supervisor.

Medical Inspection

The health of the pupils is of first importance. This year \$104.40 was realized from the sale of Health Seals. 75 per cent. of this goes to the County Nurse for Health work in the local schools.

This year a large per cent. of the pupils have been vaccinated. About 30 pupils in each building carry their noon lunch. It has been recommended that these 60 pupils have warm soup or cocoa at noon at cost. During 65 days in the winter this can be done. It would cost at least \$150. Those pupils who can afford to pay should do so. Parents are urged to come in and partake of this feature. Orders for this should be sent in by some child the day before.

Any parent who receives notice from the Nurse that a child needs Medical attention should take serious notice. A half blind child has only one pair of eyes in the world and can't learn to read without glasses.

\$100 from Public funds has been expended this year in addition to the amount from the Health seals.

The doctors are making the throat corrections. The remaining thing to be done is to make a drive on Dental Hygiene. The teachers will assist the parents in encouraging clean mouths and sound teeth.

The report of the Inspector follows:

To the Citizens and Schoolboard of the town of Rangeley:

I hereby submit my report as the Public Health Nurse of North Franklin County from February 11, 1928 to January 15, 1929.

Observation has shown us that the best way to avoid epidemics in schools is to have regular inspection of all school pupils and to have health teaching in school programs.

It is impossible to estimate the value of this health service either in money or statistics, but these figures will give some idea of what the Public Health Nurse is doing in Rangeley. This service is supported by the sale of Christmas Seals and this year \$100 extra from the town has been received.

The pupils in the schools were given two routine examinations this year, one in February, 1928, and one in January, 1929. There was a special examination in June for six-point pins. About 350 children have been examined twice, making 1000 individual inspections. In February there were 82 six-point children and in January, 1929, there were 140, an increase of 58, showing a large percentage of corrections during the summer. 61 children were found with defective throats, 130 with defective teeth, 42 were 10% underweight. There were 17 throat corrections and 94 dental corrections. The underweight high school pupils were reweighed in September. The January examination showed fewer underweight girls and more underweight boys in the high school. Talks were given in each room visited on "Prevention of Colds," "Personal Hygiene," and "Ventilation". 15 days were spent with school and clerical work.

The Nurse expresses her thanks to the school board for the special meeting held which gave her an opportunity to explain the work she is trying to accomplish in the schools and also the use of the Health Crusade Charts. The Red Cross chairman was also present and the subject of hot school lunches was discussed.

In closing the Nurse and her committee wish to thank the doctors and dentists who willingly gave their professional advice and care to the school children, and to the townspeople who contributed to the Christmas seal fund.

Respectfully submitted,

No. Franklin Pub. Health Nursing Service,

By ADA H. STAFFORD, Pub. Health Nurse.

Report of Tax Collector

I herewith present a brief report as tax collector. April 19, 1928 appointed and commitment received. July 5th appointed to succeed George M. Esty as collector for 1925-1926-1927.

1925 unpaid commitment	\$ 44 74

1927 commitment I collected	1,065 64
1928 commitment I collected	71,236 81
Supplementary collected	739 97
Interest collected	127 44

On Feb. 4, 1928 real estate was sold for taxes amounting to	\$391 30
Left with attorney for collection	318 20
Bankrupt, probably to be paid by trustee	157 15
	<hr/>
	\$866 65

These three listed above could not be collected before but I have no doubt each will be paid in full. That which was sold for taxes is not paid for in full as the law does not require it for 20 days after the sale thus you will see they had to be listed in the unpaid taxes. With these out it only leaves of the 1928 commitment \$806.95. Two taxes have been paid since I settled with the assessors and several have promised to pay before our annual town meeting in March.

I wish to say that I think the town should raise more for abatements this year than usual. While I do not think there is very much in the 1928 commitment that will have to be abated, there is quite an

amount in the 1925-1926-1927 commitments that I believe will have to be abated, and as the assessors have to report uncollected taxes in the resources of the town, if they are not collectable they are not resources. Raise more for abatements this year, so that the assessors won't have to report unpaid in our resources when they are not resources if not collectable.

Respectfully submitted,

CHAS. L. HARNDEN, *Coll.*
